

SERIE 900

Code CR0784849

Model 9PC/G1205

6 BURNER GAS RANGE TOP VERSION

General Characteristics

The 900 Baron line is made in compliance with strict European Standards in terms of safety, hygiene, reliability and respect for the environmental and is certified under international standards such as CE, GOST, AGA and others. Stainless steel with scotch-brite finish heightens the aesthetic appeal, and the technological and ergonomic innovation of this equipment. Thanks to great compositional flexibility, cook tops can be matched with oven bases and accessorised with hygienic finishes. Customised line-ups are possible by combining and fixing the equipment back to back, flushed sideways with perfectly sealed connections, or by creating "bridge" structures, offering top solutions to any chef. Basic range features:

- 2 mm thick moulded tops;
- 2" height adjustable stainless steel feet;
- removable control panel for access, moulded and shaped to avoid withholding dirt;
- recessed, tilted and ergonomic knobs.

GAS RANGE

Ranges are essential in every kitchen. Baron ranges are available in a number of combinations: top version; on open or closed base, on ovens. The cooktop is moulded in a single-piece, sealing the burners and so preventing food to get in the technical area. A special version of cook top with waterbath option, equipped with drain, giving an exceptional hygiene and cleaning possibility is also available.

Technical/Functional Characteristics

- Fully moulded top, obtained from a large stainless steel plate;
- Long prongs enamelled cast iron grilles to easily move pots between one burner and another; Stainless steel rod grilles are available
- High power cast iron burners (3.5- 5.7- 7 and 10 kW);
- Burners piezo-electric ignition available as optional
- Stainless steel removable two-burner basin accessory

Technical Data
